COTTON KING NO LONGER.

The San Francisco Chronicle of Saturday last, has the annexed interesting statistical information relative to an industry which has become the most important in our country. Our farmers will read of it with pleasure:

The dairy fair which opened in New York yesterday has drawn attention to the enormous increase in quantity and value of dairy products in the United States. The production of butter and cheese for export began in the Eastern part of New York thirty years ago. To-day it is one of the leading industries. Pennsylvania, Ohio, part of Michigan, Northern Illinois, the best sections of Wisconsin and Iowa, and California have all gone extensively into the dairy business. California has changed from an importing to an exporting State within a short period and Chicago, which formerly drew its supplies from the East, now ships 1,000,000 pounds annually to New York. So with Canada, which formerly brought in a New York State, and now ships 80,000,000 pounds annually to Great Britain.

The value of the land and cows in the United States employed in producing milk, butter and cheese is estimated at \$1,300,000,000. There are over 3000 factories, besides tens of thousands of private dairies. One manufacturer in New York has forty factories, others from five to thirty each. Farms in New York City handle from \$2,000,000 to \$3,000,000 each of butter and cheese. The entire production of the United States is estimated at 1,500,000,000 pounds of butter and 350,000,000 pounds of cheese annually. There will be exported this year 130,000,000 pounds of cheese and 25,000,000 pounds of butter. The combined value of the butter and cheese product is about \$50,000,000, or 50,000,000 more than the wheat crop, three times more than the potato crop, one third more than the cotton crop and only one fifth less than the corn crop.

The exports of butter and cheese have increased thirty three per cent this year, and have paid ocean freight to the amount of over 1,000,000 and 5,000,000 to the railroads. The number of cows in the United States is over 14,000,000. This is six times the number in Great Britain, and more than in Great Britain, Denmark, Norway, Switzerland, Sweden, Russia, Austria and Hungary, and more than in all France, Holland, Belgium and Germany.

WHAT'S IN A NAME.

The Marquis of Lorne, son in law to the English Queen, recently appointed Governor-General of Canada, is a very important personage, notwithstanding the fact that a common man had married the Queen's daughter Louise. Taken good breath and we are into his name and title:

The Marquis of Lorne, Campbell, the 12th Hon. Sir John George Edward Henry Douglas Sutherland; styled by courtesy Marquis of Lorne; Privy Counsellor; Knight of the Most Ancient and Most Noble Order of the Thistle; Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George; Governor-General of the Dominion of Canada. Eldest son and heir of the Duke of Argyll, by the late Duchess, eldest daughter of the second Duke of Buccleugh. Born at Stafford House, London, August 6, 1815; elected M. P. for Argyleshire February, 1868; private secretary to his father at the India Office from December, 1868 to 1871; died, March 21, 1871. Her Royal Highness Louise Caroline Alberta, daughter of the second Duke of Buccleugh, born at Stafford House, London, August 6, 1815; elected M. P. for Argyleshire February, 1868; private secretary to his father at the India Office from December, 1868 to 1871; died, March 21, 1871. Her Royal Highness Louise Caroline Alberta, daughter of the second Duke of Buccleugh, born at Stafford House, London, August 6, 1815; elected M. P. for Argyleshire February, 1868; private secretary to his father at the India Office from December, 1868 to 1871; died, March 21, 1871.

"THE VALIANT MAN AND FREE."

The Carson Appeal editor, whose first choice, last choice, and choice all the time, for President in 1880, is Grant, takes occasion to remark:

Those political critics and their retinue of impracticables and fault finders who followed Greeley into the "Independent" fiasco of 1872 and who are now of the dwindling faction of Hayesites have almost succeeded in demonstrating that what is known as the Republican party lacks the force and strength to cope with the Democratic party, intolerant and overpowering as it is in the South and subtle and virile as it is in the North. But it has been demonstrated that there is a strong and propulsive, if not resistless sense of Northernism in the New England, Middle, Western and Pacific States, and say what the Hayesites may, that same will, almost inevitably, insist upon replacing Grant in the Presidential Chair in 1880. Through twice elected he never sought the great office he filled with so much ability. When the North gave him the Presidency in 1868, no man knew his politics. But the country knew then, as they know now, that he was the largest minded man who had ever taken part in the governance of our Country in the field; and so, with one accord, they placed him in the White House. The succession of 1872 was a matter of course. In 1876 the people, especially after his Des Moines speech, wanted him for a third term. It was the aspiring and self-seeking politicians who defeated him. And now, after he has returned from his triumphant march through Europe, unsupported by flattery but underlined by the greatness of his deeds, enlarged, enlightened and rested, the great North, rising above faction and looking ahead and over the schemes and ambitions of its lesser men, great and distinguished as some of them may be, will invite the great Chief-magistrate more to take upon himself the responsibilities and cares of the office he filled so well. There will be such jubilation throughout the North as was never seen before; and the joyous bells, "to the true occasion true" will

"Ring in the valiant man and free."

EVERYONE who suffers from chapping of the face or hands should remember that Queen's mystic balsam is the most elegant, and effective preparation known for the healing of the flesh. THE DAILY JOURNAL

the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL are a combined circulation larger than that of any other journal of Nevada, excepting those the Comstock.

NEWS OF THE MORNING.

Several changes are rumored as about to take place in the President's Cabinet.

The Senate has confirmed Halbert E. Paine of Wisconsin Commissioner of Patents.

A Tallahassee (Florida) special says both Democratic candidates for Congress in Florida will be declared elected.

The French Chamber of Deputies has ratified the silver convention with Belgium, Italy, Switzerland and Greece.

A bill has been introduced to replace the \$1,600,000 registered bonds stolen from the Manhattan Bank. Nearly 18,000 depositors are interested in that bill.

Conkling took his seat in the Senate for the first time Tuesday morning. In private conversation he announces himself for Grant as a Presidential candidate.

The London Grand Jury has thrown out the bill of indictment against Lady Gucho, accused of conspiracy to plam off a spurious child on her husband as his heir.

Samuel Collier, the well known prize fighter, who was sentenced in Salem county, New Jersey, on Nov. 3, 1876, for manslaughter, to six years imprisonment, was pardoned last Saturday.

A Washington special hints that if Hamburg Butler is unseated when the Democrats come into power after the 4th of March he will be reelected. A precedent would also thereby be given to retire Kellogg of Louisiana.

The commercial treaty with Japan, soon to be communicated to the Senate by the President for ratification, contemplates important additions to the present treaty, having in view the increase and development of the commerce of both countries.

It is stated that the friends of Senator Thurman will insist on his being the next candidate for Governor of Ohio, believing him the only man to beat the Republicans, and that if successful he will be able to secure the nomination for the Presidency.

SENATORIAL CONTEST.

J. W. Haines will contest the right of F. P. Dangberg to a seat in the State Senate. Dangberg, on the face of the return has two majorities, Haines claims that at Cave Rock precinct two ballots were found upon which his name was written, and Dangberg's printed. The Judges called the votes for Dangberg, but the law is that the written name should be counted. The Senate is the judge of the election of its own members, and the question will be decided according to the law and the facts, upon which we are not prepared to pass our opinion at this time. The contestant was the regular Republican nominee for Senator from Douglas county, and Mr. Dangberg ran on the Independent ticket.

A GREAT MISFORTUNE.

There is very high authority for the statement that the Union and Central Pacific railroads are earnestly moving in the direction of consolidation, and the prospects are good that these two great properties will ultimately be under one management. It is said that the next probable important movement by these companies will be to secure by purchase or lease the Pacific Mail Steamship line, and thus the whole Pacific steam and railroad transportation business will become a great monopoly.

WADE HAMPTON—SENATOR.

The South Carolina Legislature yesterday elected Wade Hampton United States Senator, to succeed Patterson. Another instance where the office of Governor has proven a stepping stone to the Senate. Hampton takes his seat on the 4th of March, and the Lieutenant Governor of South Carolina becomes Governor.

Now that the Marquis de Lowe has not to be Governor up there in Canada he will probably be allowed to eat at the same table with his wife, and not come in to the second table as required in England. He was not blue blooded, simple a Marquis, and though Miss Louise married him regardless, still he is simply His Excellency, while she is Her Royal Highness. Rather rough that a man isn't the equal of his wife. Such a state of affairs would hardly suit Americans.

Of course it wasn't Charley. We didn't suppose it was when the announcement was made, but Mr. Ross, still clinging to the hope of seeing his boy again, traveled a long distance, with the usual result. Enough of "Charley Ross" has been discovered to populate a kingdom. The police of New York have found clues enough to the whereabouts of Stewart's body to fill Lone Mountain, were they each productive of a corpse, and the end is not yet.

Jim Anderson, of the Louisiana Sherman letter fame, is in Eureka and of course Cassidy hopped upon him for an item, and got it. It has a big heading, and such an indignation meeting as George held all to himself. He has evidently forgotten that that same Jim Anderson has told a different story each week, and that Cassidy bounced him when a new story was out and dried.

The telegraph announces that the Ameer is becoming alarmed at the rumour he has kicked up with England. He thought his forces and strongholds would withstand anything that could be hurled against them. The steady and restless advance of the British forces has changed the Afghan's mind and he wants peace. He evidently cut off a bigger piece than he could "chaw."

Schurz doesn't want the Indian Department transferred from the Interior to the War Bureau. As Schurz is the head of the Interior Department this objection of his looks rather as if he was making a good thing out of the red man and proposed to keep it, while the soldier boys are anxious to secure it for themselves. Between the two the Indian has little chance.

That \$25,000 appropriation by Congress for the Potter Committee to investigate Hayes' title with, is exhausted and the only result so far attained is to strengthen Hayes' title and show up Tilden and his friends. Probably it would be a splendid election dodge for the Republicans to vote them more money. With a little more such "investigation" they could elect Emperor Norton President in 1880.

THE PENALTY QUESTION.

The *Silver State* and *Eureka Sentinel* are discussing the bullion tax penalty question which, it is said, will be brought before the Legislature. The *Sentinel* says no Convention alluded to the subject, a statement hardly pardonable for one who claims to know it all in State politics. The Washoe County Republican Convention did incorporate in its platform a plank its legislative delegation to vote against the remission of the penalty due the State from the bonanza mining companies. The *Sentinel* also makes an other statement so erroneous as to excite the suspicion that the editor is at fault. We refer to the additional penalty provided where the amount of the tax exceeds \$300. The law is that 25 per cent additional shall be added to the original 10 per cent—not 20 as claimed by the *Sentinel*. The people remember that when the bonanza companies paid their back taxes, an arrangement was entered into between the State and the companies whereby the penalty of about \$125,000 was not to be paid for two years, the object being to enable the bonanza companies to obtain from the Legislature a remission of the penalty. That money belongs as sacredly to the State as the tax itself it should be collected. And the Legislature will do a great wrong if it remits it. If the poor are made to pay their penalties, let no favorite be shown the rich.

MISTAKEN.

We did not think there was room for another Ohio man, but we see by the telegraph that the President has nominated D. H. Bailey, of Ohio, Consul General at Shanghai.

Wade Hampton is improving, but his leg will have to be amputated.

General Gibbon, commanding the Department of Dakota, adds a leaf to the literature of the Indian Bureau by stating that it is unwise to place the control of the aboriginal tribes under two departments, as they have, and always will, disagree—which destroys harmony, responsibility and is a very great detriment to the Indians. He also says the total lack of responsibility of the Indian agents, and the general looseness of the Indian Bureau, admits of gross frauds upon the red men, which makes them suspicious, discontented and revengeful.

Here is undoubtedly the whole Indian question in a nutshell. General Gibbon is an old soldier, is a man of observation and integrity, and his frontier command has given him an opportunity to judge correctly of the ill treatment and mismanagement of the Indians. The unwise economy of appointing decayed and corrupt partisans to manage the Indian agencies has taught the Government a great lesson, but as yet we see no radical movement for reform. The United States authorities, and not the wild or semi-civilized Indians, should be held accountable for the hostilities which have existed in the North West Territories for the past dozen years.

IN SUICIDE CRIMINAL?

It is evident that the ancients did not consider suicide criminal, nor dishonorable, for any honest encyclopedia of biography will tell us that Mark Anthony, Demosthenes, Thucydides and Cleopatra advocated it as a right. Cato, rather than endure the despotism of Caesar, stabbed himself to death. Hannibal and Mithridates poisoned themselves rather than be taken prisoners. Even Cicero, who was unquestionably a great orator, said, "suicide is more honorable than exile." Pliny also defended suicide as "the sheet anchor and boon of weary mortals overladed with the burthens and trials of life." Hence, it is evident that in ancient days insanity was not aligned to self-murder, nor is it necessarily so today. There are times when dark shadows pass over the bright side of our lives; when hopes of happiness or fortune are blighted; when misfortunes multiply and seem insurmountable; when life appears a wreck or failure; when pride, ambition or love are blighted and blasted—then some people, as sane as you or me, kind reader, do commit suicide.

A WASHINGTON correspondent says that Senator Jones was a busted man when he left Washington a few weeks ago, but on overhauling his trunk when he reached Gold Hill he accidentally found 5,800 shares of Sierra Nevada stock, which he had inadvertently purchased awhile before at \$4 per share. He heard the stock was going up so he held on to it till it got up to \$200 when he felt ashamed to hold any longer, and sold out, only clearing a little over a million by the transaction. The *News* says the above is only true as far as it goes. Most of us hereabout, who are reveling in the recklessly slung out overplus of Jones' financial requirements, can inform the aforesaid correspondent that \$13,000,175 are the true figures. Good to have, you know.

CONGRESSMAN POWERS, of Maine, says the two Greenback Congressmen from that State will vote with the Democrats, as everybody expected they would. He reports the rapid decay of the Greenback movement, and has no doubt that the State is safely Republican to-day. The next Republican candidate for Governor he thinks will be Eugene Hale, and the Governor elected by the Legislature this year, Garcelon, the Democratic candidate.

LETTERS from China state that during the recent famine seven millions of people died, five millions in a single province—Shensi. The amount of contributions from the Eastern States to November last was \$22,670, which was distributed judiciously.

The *Eureka Republican* says that Mr. Elison will earn the nodding gratitude of this coast by inventing a stock market that won't break.

JAMES E. ANDERSON, of Louisiana celebrity, says the *Eureka Leader*, has accepted a position as city editor of the *Sentinel*, and will enter on his new duties Monday.

AMONG other assets of Mr. Torp's estate is a life insurance policy for \$10,000 in favor of his wife.

Log rolling is one of the chief evils that arise in every legislative body. It is a compromise of justice with injustice, of honesty with dishonesty. Every State Legislature is afflicted with it. A measure is presented for consideration which has no claims whatever to passage and which was never intended for public good. It will have some advocates, of course—some who are merely schemers, and some who are conscientious but short-sighted. Another measure is introduced of an undoubted wholesome tendency, which may lack supporters. Then says the *Virginia Chronicle* there will begin a bargain between what is wrong and what is right, by which the wrong may triumph. The advocate of an unjust bill will vote with the advocate of a just bill if the latter will return the service when the time comes. Bargains of this kind are made by members who do not pause to consider the magnitude of the evil which they countenance or further, or who so enthusiastic in the passage of a single good measure as to be blind to the real character of a bad one. This is "log rolling." It is just the reverse of conscientious and intelligent action.

In less than a month hence Nevada's Legislature will be assembled in Carson. Many bills will be presented that ought not to pass, and some will be defeated no doubt that ought to receive general sanction. "Log rolling" will be practised from the first—unless the material of this Legislature shall prove to be very different from that of any of its predecessors—and the public will be cheated by it as usual. The evil is one that should be carefully guarded against by members who are anxious to serve their constituency faithfully and intelligently, and who value the approval of their own consciences and the respect of honest men more than temporary gain.

GOVERNOR HARTNETT, of Pennsylvania, has decided to issue a warrant for the execution, on the 18th instant, of the notorious Mollie Maguire, John Kehoe, who was convicted of the killing of P. S. W. Langdon in Schuylkill county, in 1862. Warrants are also issued for the execution on the same day of Martin Bergen of Schuylkill county, Charles Sharp and James O'Donnell of Carbon county, and Alexander Sayre of Philadelphia.

PROPOSALS WANTED.

THE UNDERSIGNED will receive proposals until Saturday, December 14th, 1878, for running a tug, 1370 feet to protect the wharves, nine, three and a half mile north of Reno. All things will be furnished on the ground. Tug to be 16 feet and a half feet wide and 14 and a half feet high. The right to reject any and all bids is reserved. Address

Of Ten Years' Duration. The Discharges Thick, Bloody, and of Foul Odor. Senses of Smell and Taste Wholly Gone. Entirely Cured by

SANFORD'S RADICAL CURE.

Messrs. Weeks & Potter: Gentlemen—I feel compelled to acknowledge to you the great benefit SANFORD'S RADICAL CURE has been to me. For ten years I have been afflicted with this loathsome disease, and especially in the winter time has it been most severe. The discharge has been thick and bloody, emitting a foul odor so bad that my presence in a room with others was very offensive to them. One week after commencing the use of SANFORD'S RADICAL CURE I was cured of my complaint. My senses of smell and taste, which were wholly gone, have now fully returned, and my general health is much improved.

NELSON H. FORD,
GRAND RAPIDS, MICH., Nov. 5, 1878.

LATER.

Gentlemen: The purchase of SANFORD'S RADICAL CURE has done for me what I had been unable to do for myself. I have been cured of my loathsome disease, and I have been able to return to my duties. I have been cured of my loathsome disease, and I have been able to return to my duties. I have been cured of my loathsome disease, and I have been able to return to my duties.

MELBOURNE H. FORD,
GRAND RAPIDS, MICH., Nov. 15, 1878.

SANFORD'S RADICAL CURE

Not only promptly arrests the corroding discharges, but it also acts as a powerful restorative to the system, and restores to the organs of the head that have become inflamed by it, and exhibit any of the following affections—

Defective Eyesight, Inflamed and Watery Eyes, Loss of Hearing, Earache, Neuritis of the Ear, Discharges from the Ear, Ringing Noises in the Head, Dizziness, Nervous Headache, Pains in the Temples, Loss of the Senses of Taste and Smell, Elongation of the Uvula, Inflammation of the Tonsils, Putrid Sore Throat, Tickling or Itching Cough, Bronchitis, and Bleeding of the Lungs.

Each package contains Dr. Sanford's Improved Inhalant Tube, a full and carefully prepared directions for use in all cases. Price, \$1. For sale by all wholesale and retail druggists, and at all the principal cities of the United States and Canada. Write to J. B. POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTERS

AN Electro-Galvanic Battery, combined with a highly medicated Plaster, forming the grandest curative agent in the world. It cures, and cures rapidly, all other Plasters heretofore in use. They accomplish more in one week than the old Plasters in a whole year. They do not irritate, they cure. They

Relieve Affections of the Chest, Relieve Affections of the Lungs, Relieve Affections of the Heart, Relieve Affections of the Liver, Relieve Affections of the Spleen, Relieve Affections of the Kidneys, Relieve Affections of the Spine, Relieve Affections of the Nerves, Relieve Affections of the Muscles, Relieve Affections of the Joints, Relieve Affections of the Head, Relieve Affections of the Face.

No matter what may be the extent of your suffering, try one of these Plasters. Relief is instantaneous, a fact supported by hundreds of testimonials in our possession. Bear in mind that the most important discoveries in pharmacy date back less than ten years, and that combinations of gums and resins, and plants and herbs, or therein mixed with Electricity to form a curative Plaster, in soothing, healing, and strengthening properties are far superior to all other Plasters heretofore in use as the scientific physician is to the horse-shoe.

Price, 25 Cents.

Be careful to call for COLLINS' VOLTAIC PLASTER, and get some worthless imitation. Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Verdi Mill Co.

Mr. Condon, Supt. of the Verdi Mill Co., was in town last evening. From him we learn that the mill is running full, twenty men being employed, and turning out lots of doors, sash, monidings, flooring, etc. The Co. are shipping immense quantities of lumber to Bodie, Virginia and Reno, and doing a good business generally. It is a first class company to deal with. We know that.

Spelling Bee.

On this Wednesday evening the ladies of the M. E. Church will give an old fashioned Spelling Bee, which will be open to all contestants. Prof. O. Ring will give out the words. Three prizes will be awarded. An admission fee of 25 cents will be charged at the door.

Mayberry's Camp.

All the old contracts have been completed, and the flume has been shut down for the season. Work is being pushed ahead on the new work, there being an extensive tract of land to clear off, and 200 men are now at work chopping. Fifty thousand cords will be cut this winter.

To the Sandwich Islands.

Alvaro Evans and W. R. Thompson are going to spend the winter at the Sandwich Islands. They will leave Reno immediately after the holidays.

The funeral of L. H. Torp in Virginia yesterday was a very large one, the citizens generally turning out to give him the last sad attentions. Mrs. Torp is much distressed at the death of her husband, but is doing as well as could be expected from the nature of the wounds. The doctors are hopeful of her ultimate recovery.

At the annual meeting of the Reno Gas Co., held last evening, the following officers were elected: Jas. H. Kinkead, President; M. C. Lake, Vice President; Reno Savings Bank, Treasurer, and B. F. Leeto, Secretary.

All members of Truckee Lodge, No. 14, I. O. O. F., are desired to attend the regular meeting this evening, as business of importance will be transacted.

Stocks are still marching up a little. Some of them are quite lively.

An assessment of one dollar per share has been levied on Alta.

Brevities.

That fire in the mountains has burned itself out.

Sowing on the mountains yesterday. Clear and cold here.

The spellists will be out in force at the Spelling Bee to night.

A glance at our advertising columns tells where to get the best of goods cheapest.

S. M. Jamison went below last evening for his holiday stock. He knows just what to get.

John O'Brien drove 3,000 sheep down on the Meadows yesterday, where they will winter.

The farmers are very nearly through baling. Then the weather can begin as soon as it wants to.

Joe Geise was a member of the Reno Brass Band, and they turn out at his funeral to day to do honor to his memory.

A rich strike has been made in the drift of the Con. Emerald. It will assay way up in the hundreds. Extent not yet known.

L. L. Crockett, T. K. Hymers, J. O. Hagerman and other Renoites went to Virginia yesterday to attend the funeral of the late L. H. Torp.

The Pioneers hold a Fair in Virginia on the 15th, 16th and 17th of this month. The proceeds will be devoted to freeing the Society from debt.

L. W. Lee yesterday shipped 255 head of fine beavers from Honey Lake Valley to Hays, Carriok & Co., Oakland. This is the first of a series of regular shipments to be made. He will ship 2,500 head altogether.

The Mansalona Mine, near the Con. Emerald, wants proposals for running a tunnel 350 feet, the tunnel to be 3 1/2 by 6 1/2. Timber to be furnished by the Co. Address bids until the 28th to Jas. A. Scott, Golden Eagle Hotel, Reno.

Land Slides.

There is great danger of land slides in the deep cut made for the railroad, this cold weather. The moisture in the ground becomes frozen and when it thaws the rock is apt to fall upon the track, thus endangering the trains. A sharp lookout is always kept, but sometimes they will get caught. As a precaution the engines are being provided with "aprons," which serve to lessen the danger of ditching considerably.

Ice Cream Social.

The ladies of the Congregational Church will give an ice cream social some evening next week, in order to raise a fund with which to buy Christmas presents for the little ones of the Sunday School. Help the ladies out.

The Sierra Nevada incline is down 50 feet below the 2,200, and in rich chloride ore.

Gov. BRADLEY has returned from San Francisco.

SUBJECTS FOR GO.

The Gold Hill News says when Mr. and Mrs. Torp were thrown from their carriage Sunday, there was a sort of spell cast by the disaster over all beholders, so that after they struck every one seemed paralyzed with horror and stood motionless for a moment or two before going to their assistance. During those few minutes there were those, however, who, wanting all the feelings of humanity, things and not men, were prompt to act, not for the relief of the sufferers, but for their own selfish ends. When J. C. Hampton reached the scene of the disaster men were going through Mr. Torp's pockets. This is not the first accident of the kind that has been taken advantage of in this city for plunder. There are others who have been run away with and thrown, and while lying helpless have been subjected to similar outrages. The raid on Mr. Torp's pockets was interfered with before concluded and the perpetrators rebuked; and were it known generally who they were they would be wanted on by 601 and politely invited to leave town.

The attempts to stock the waters of Maryland with the California salmon promise to be completely successful. In a recent tour of inspection Fish Commissioner Thomas Hughes, found everywhere gratifying evidence of the success of fish planting. At Havre-de-Grace and other points along the Susquehanna, salmon are beginning to make their appearance in the river, and many of good size had been caught. Even as far back as last Spring a salmon weighing over eighteen pounds was caught in the Susquehanna and sent to Professor Baird, of the Smithsonian Institution, as an evidence of the success of the commissioner's work in Maryland.

Kearney, accompanied by Judge Ferral of the City Criminal Court and officers of the Workingmen's party, took a tour through San Francisco Chinatown Monday night. Kearney was disguised, but was recognized by the Chinamen, and though many crowded to see him, he and his party were allowed to pursue their way quietly.

The California Constitutional Convention Monday adopted a resolution requesting the Chair to appoint a committee to draft a petition to the Governors of Oregon and Nevada, soliciting them to memorialize the President and Congress on behalf of their respective States, for a modification of the Burlingame treaty.

The war in Jackson, Kentucky, still goes on. Another collision occurred on Wednesday last between the opposing parties of outlaws, resulting in the death of four men and the wounding of seven others.

WANTED.—Before the 1st of January, \$25,000! We offer as an equivalent \$50,000 worth of dry goods, fancy goods and clothing. Startling as the above announcement is, nevertheless it is true. Necessity knows no law, nor rule of business. We take this unusual method with the full knowledge of the sacrifice we have to suffer, but we are compelled to raise the above amount of money within 30 days, and offer all the inducements in our power to succeed. We will sell black French silks (genuine Bonnets), from \$1 to \$3. Colored satins, black cashmeres, mourning goods, crape cloth, shawls, dress goods, fancy and domestic goods, cloaks for ladies and children, carpets and wall paper, of all description, at such rates that they are within the reach of all, and everybody will be able to make handsome presents for the holidays, with small investments. We also call especial attention to our immense stock of clothing, which we intend to close out entirely, as we propose to enlarge our dry goods business. We reduced this stock so exceedingly low that it would be folly for anybody wanting to buy men's or boys' clothing, to go in any other house. Give us a call, examine and be convinced.

BARNETT BROS.

NEW DEPARTURE.—On and after December 1st, 1878, the store of Manning & Duck will be conducted on a cash basis. Every customer will be compelled to pay for his own goods. No extra profits for bad debts. We propose to sell goods cheaper than they have ever been sold in this market. We are compelled to this important step by several weighty reasons: First, we wish to encourage prompt payment. Second, the prompt payer should not be compelled to pay an extra profit for the slow customer or the man that never pays. Third and most important reason, we are not able to carry so large an amount of our capital on our books and keep up our stock of goods. Good gift edge customers will be allowed a credit of thirty days. If by agreement longer time is given, interest of 1% per cent. a month will be charged.

A. H. MANNING.

N. B. The old accounts of Manning & L. Duck must be settled by cash or note by the 1st of next January or they will be placed in the hands of a collector for collection.

A. H. MANNING.

WHO WANTS BARGAINS?—The dissolution sale of Barnett Bros. offers extra inducements just now, if you have the coin and need Dry Goods, Clothing, etc., of any kind. They sell without regard to cost, as a glance at their price list in another part of this paper shows. Let all who want bargains call on them as they mean just what they say. All indebted to them are desired to come up and settle immediately.

A CARD TO THE PUBLIC.—I do not sell any goods 20 per cent. below cost, or even at cost, but I offer my first class stock of clothing, furnishing goods, boots and shoes, hats and caps, trunks and valises, etc., etc., which have been bought for cash, at the lowest market rates. Therefore I wish the public to post themselves on my prices before going to the lumbering shops where they are always drumming into the ear that they are selling at cost, or below cost. They either bought unsalable goods or they lie to deceive the public; they don't deserve to be patronized. Remember the One Price Store—The White House—No. 19 Commercial Row, next door to the Postoffice.
